

Cordless Safety Cards

Printable client leave-behind cards explaining cordless lift, the standard it meets and where it matters.

CLIENT LEAVE-BEHIND

LEAVE-BEHIND

Cordless safety cards

The cordless statement in plain language, sized for a handover pack. Print, cut on the hairline, leave with the client.

VENETA · CORDLESS No looped cord Cordless lift is the standard configuration on every Veneta line. There is no operating cord loop, no cleat and no tension device to fit. 1-855-558-1222 · venetawindowfashions.com/child-safety	VENETA · CORDLESS Where it matters Nurseries, children's bedrooms, low windows and window seats. A cord within reach is the hazard the standard exists to remove. 1-855-558-1222 · venetawindowfashions.com/child-safety
VENETA · CORDLESS The standard Cellular shades are published as meeting ANSI/WCMA A100.1, the American National Standard covering the safety of corded window covering products. 1-855-558-1222 · venetawindowfashions.com/child-safety	VENETA · CORDLESS Older windows in the house If any covering elsewhere in the home still has a looped cord or a chain within reach, that is the one to replace next. 1-855-558-1222 · venetawindowfashions.com/child-safety
VENETA · CORDLESS Motorized shades TruQuiet™ motorization removes the cord as well. Battery packs recharge in place, so no ladder and no loose cells. 1-855-558-1222 · venetawindowfashions.com/child-safety	VENETA · CORDLESS If something binds Stop and call 1-855-558-1222. Cordless mechanisms are covered for the life of the product for the original purchaser. 1-855-558-1222 · venetawindowfashions.com/child-safety

No blackout, energy-savings or acoustic claim appears on these cards, because Veneta does not publish those figures.
