

Measuring Worksheet

A printable site sheet: opening, mount, depth check, line, fabric and lift,
three windows per page.

FOR DESIGNERS AND INSTALLERS

WORKSHEET

Window measuring worksheet

One block per window. Fill it on site, then order from the sheet rather than from memory.

Before you start

- 1 Use a steel tape, not a cloth tape. A cloth tape stretches and the error lands in the finished size.
- 2 Decide inside or outside mount before you measure, because the method differs.
- 3 Inside mount: measure width in three places and record the narrowest to the nearest 1/8". Deduct nothing.
- 4 Inside mount: measure height in three places and record the longest to the nearest 1/8".
- 5 Outside mount: measure the area you want covered, then add overlap on each side and at the head.
- 6 Check the available depth against the mount depth reference before you commit to an inside mount.

WHY THIS SHEET EXISTS

Measuring errors are excluded from the warranty: a product made to the size supplied is not a defect. Two minutes of re-checking on site is cheaper than a remake.

Product lines: Cellular Shades · Roller & Solar · Roman Shades · Faux Wood Blinds · Shutters · Sheer Shades · DualDrape™ · Vertical Blinds

Minimum inside-mount depth: 3/4" Cellular · 2" Roller, solar & faux wood · 2 1/2" Roman & sheer · Framed Shutters · Outside mount Under 3/4"

WINDOWS 1-3

Window schedule

Window 1

Room / window ID	_____
Mount	Inside ☐ Outside ☐
Width 1 / 2 / 3	____ / ____ / ____ → narrowest ____
Height 1 / 2 / 3	____ / ____ / ____ → longest ____
Available depth	____ Meets minimum? Yes ☐ No ☐
Product line	_____
Fabric / colourway	_____
Opacity	Light filtering ☐ Room darkening ☐ Blackout ☐ Screen ☐
Lift	Cordless ☐ Top-down/bottom-up ☐ Motorized ☐ Wand ☐
Obstructions	_____
Notes	_____

Window 2

Room / window ID	_____
Mount	Inside ☐ Outside ☐
Width 1 / 2 / 3	____ / ____ / ____ → narrowest ____
Height 1 / 2 / 3	____ / ____ / ____ → longest ____
Available depth	____ Meets minimum? Yes ☐ No ☐
Product line	_____
Fabric / colourway	_____
Opacity	Light filtering ☐ Room darkening ☐ Blackout ☐ Screen ☐
Lift	Cordless ☐ Top-down/bottom-up ☐ Motorized ☐ Wand ☐
Obstructions	_____
Notes	_____

Window 3

Room / window ID	_____
Mount	Inside ☐ Outside ☐
Width 1 / 2 / 3	____ / ____ / ____ → narrowest ____
Height 1 / 2 / 3	____ / ____ / ____ → longest ____
Available depth	____ Meets minimum? Yes ☐ No ☐
Product line	_____
Fabric / colourway	_____
Opacity	Light filtering ☐ Room darkening ☐ Blackout ☐ Screen ☐
Lift	Cordless ☐ Top-down/bottom-up ☐ Motorized ☐ Wand ☐
Obstructions	_____
Notes	_____

WINDOWS 4-6

Window schedule

Window 4

Room / window ID	_____
Mount	Inside ☐ Outside ☐
Width 1 / 2 / 3	____ / ____ / ____ → narrowest ____
Height 1 / 2 / 3	____ / ____ / ____ → longest ____
Available depth	____ Meets minimum? Yes ☐ No ☐
Product line	_____
Fabric / colourway	_____
